APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The issuance of this permit will allow the permittee to dewater the pit area. The water diverted from this well during the dewatering stage will be placed in such manner as to allow for percolation back to the groundwater source.

Monthly reports covering and including the rate of diversion and the total  
 (CONTINUED ON PAGE 2)

volume from this dewatering well shall be supplied to the State Engineer.

The permittee shall discharge water in a manner and in allocation calculated to conserve water. All disposal sites shall be first approved by the State Engineer.

After the dewatering of the pit area the water diverted will be used for mining, milling and domestic purposes.

The total diversion rate under Permits 50386, 50387, 50388, 50389, 50390 and 50391 shall not exceed 16.0 c.f.s. (7,180 gallons per minute).

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain permits from State, Federal and Local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.
